Calling all dreamers and optimistic fools

Don't let go of your dream make it now, make it all come true

If you believe in a brighter day, I know we can find our way

To this island, in a starry ocean Poetry in motion, this island earth Spinnin' like a dancer, gravity is the answer Rendezvous in the blue, this island earth

We don't know what's in store today
We can spread our wings and we can soar away
Or we can go like the dinosaurs, they say
The choice is ours to make

All this seems like yesterday We can wake up one day and be history Or stick around to unravel the mystery Of how we came to be

On this island, in a starry ocean Poetry in motion, this island earth A beautiful oasis for all the human races The only home that we know, this island earth

Well I know we can touch the stars one day And kick up the dust on Mars one day Or trip the light of the Milky Way We've got to find our way

If you're lookin' for a miracle open your eyes There was one this morning just about sunrise Dawn came breakin' like a wave on the sea And it's there for you and me

Calling all dreamers and optimistic fools

Don't let go of your dream make it now, make it all come true

If you believe in a brighter day, I know we can find our way

To this island, in a starry ocean She's poetry in motion, this island earth Spinnin' like a dancer, gravity is the answer Rendezvous in the blue, this island earth

Whoa, this island earth Got to find our way Whoa, this island earth Whoa, this island earth
