

How Time Flies

The O'Jays

Seems like
It was only yesterday
We were children
Going out to play
But a lot of things
Have gone down since then
Sometimes it feels good
To remember when

Uh huh
How time flies
Time sure flies

We didn't have
A care in the world
We didn't know about
Responsibilities
But now we've got
A lot of things to do
And there's so many places
We've got to see

How time flies
Time sure flies

And before you know it
Everything is changing
And we keep on

Watching the world go by
(Keep on)
Watching the world go
(Tell me keep on)
Watching the world go by
(Everyday there is something)
People are changing yeah
People are sad
Some people are ha ha happy

And they
Watching the world go by
Just a keep on
Watching the world go by
Say keep on

Watching
Hey the times
Get away

Twenty four hours
Makes a whole day
Seems like they're running into
One another
Year after year
They go so fast
Where are we going
What are we after?

Time
(How time flies)
How time flies

And before you know it
Everything is changing
And we keep on

(Watching the world go by)
Keep on
(Watching the world go by)
Tell me keep on
Watching the world go by
(Everyday there is something)
People are changing yeah
People are sad
Some people are ha ha happy

And they
Watching the world go by
Just a keep on
Watching the world go by
Say keep on
