

Imagination

The O'Jays

My my my my my
My my my baby
My my my my darling
Yeah

My darling, it's been a long time
But we're still together
So when we make love
I always try to do something clever
Don't want you to ever get tired
Of this same old good thing
I wanna keep it alive
So nobody else can come take you away
'Cause you're mine
And love is our Mrs

Open mind, open arms, and open heart
I'm here for your pleasure
So let's create a little bit of your fantasy
Enjoy getting you excited
Giving you the right thing

If you don't like doing that same old, same old every day (Everyday)
You've got to use a little imagination, baby (Use your imagination, baby)
Wanna keep the love you've got, don't let it slip away (Don't let it slip away)
You've got to use a little imagination, baby (Use a little imagination, baby)

Romantic journey, can we explore, love?
We can create our own vibe
Make each day special
So many ideas go in between us
Keeping the magic alive
Whatever you desire
Baby, let's make love
I'll make up a move, do it to you
You do it to me back
Oh it feels so good pleasing you
You keep me inspired
Oh yes you do
Baby, baby, baby it's all about you

Use a little imagination on me
Use it when you're making love to me every night
Oh baby
Oh

We can create our own vibe
Make each day special
So many ideas flow between us
We got that magic alive
Whatever you desire
Baby, let's make love
I'll make up a move, do it to you
You do it to me back
Oh it feels so good pleasing you

You keep me inspired

If you don't like doing that same old, same old every day (All day)
You've got to use a little imagination, baby (Use it, use it, use it on me)
Wanna keep the love you've got, don't let it slip away (Don't let it slip away)
You've got to use a little imagination, baby (Use a little imagination, girl)

If you don't like doing that same old, same old every day (Stop it)
You've got to use a little imagination, baby (Do what you gotta do, c'mon baby)
Wanna keep the love you've got, don't let it slip away (Don't let it slip away)
You've got to use a little imagination, baby

Use it, use it, use it
Use it, use it, use it
Use it, use it, use it
Come on, come on, come on

Let's get it on
Come on now, let's do it
We're stroking it, we're choking it
Say over to the left
Then down to the right
(C'mon, baby)
Then slow it down
Let's do it in the funkey
Come on, step with me, baby

Move your body side to side
Come on step with me tonight
Step on, step on, step on, step on by
(Step on by, baby)
Love you 'til you get tired
Baby you're keeping me inspired
(To move)
Step on, step on, step on, step on by
(Step on by, baby)

Step, step, side to side
Just like I want
Lookin' so good like you should
Said we're stroking it
Oooh, oooh
Oooh, oooh
Oooh, baby
(Just like I like)
Create and innovate
All night, don't stop
Let me do it with you
Come on, come on
Taking me higher and higher
And higher, higher
(Get funky with it)
Let's create a little bit
(Let's do it!)
Ooh, ooh, all these fantasies
(Let's do it!)
(Get in line)
Keeping you excited, girl
Giving you variety

(Come on, let's play)
I know you feel it
