

## Another Dream Just Come True

The Oak Ridge Boys

I was lonely and downhearted  
The night your loving took me by surprise  
But now I know that my life started  
The moment I first looked into your eyes

Another dream just came true  
Another dream just came true  
Right out of the blue  
Another dream just came true  
Another dream just came true  
Another dream just came true  
Lying next to you  
Another dream just came true

Never thought that I would find anyone  
Who could be so much a lover and a friend  
But now I know I've found my own special one  
And I won't ever have to look again
