

## Christmas Again

The Oak Ridge Boys

It's the time of year when good will appears  
On the face of most everyone you meet  
When Merry Christmas rolls right off your lips  
And you make your way down a tinsel lined street

Little faces a-gazing at windows displaying  
The things they wrote Santa and told him about  
Last minute dashing 'tween buying and wrapping  
The world is a carousel tumbling around

It's Christmas again in the city  
Christmas in every small town  
Christmas again in the country  
Christmas all over the whole world around  
A time to be thankful for living  
A chance to be gentle and giving  
So open your heart, be glad to be part of it all  
It's Christmas again

There's a wreath on the door and the tree all adorned  
With ornaments we've been collecting for years  
The fire is blazing the kids are behavin'  
'Cause Santa is coming and soon will be here
