

Love Is Everywhere

The Oak Ridge Boys

I used to be so lonely - I used to be so blue
There was a time I thought I'd never see love shinin' through
I could not find a spark of hope - there was darkness in the ai
r
Then I found someone now the clouds are gone and I see love eve
rywhere.

And I said, "Oh me - oh my - mercy mercy - love is everywhere"
Yeah, I said, "ooh wee" then I sighed, -- "Land o'goshen
Love is everywhere"

There was a woman that I heard of - they say every night she cr
ied
About a love that long ago had withered up and died
And then one night she was observed by the full light of the mo
on
With a swing in her hips and a song on her lips and a man
Up in her room

And she said, "Oh me, oh my - mercy mercy - love is everywhere"
Yeah she said, "Ooh, wee" then she sighed, -- "land o'goshen
Love is everywhere"

There was a man that lived next to me and I swear that his hear
t was hard
There wasn't no sunshine on his back porch and no flowers in hi
s yard
He claimed that he'd looked high and low but love could not be
found
But it didn't take much - just a woman's touch to turn his worl
d around.

And he said, "oh me - oh my - mercy mercy - love is everywhere"
Yeah he said, "Ooh wee" then he signed, -- "land o'goshen
Love is everywhere"
