

# Wish You Could Have Been There

The Oak Ridge Boys

Finally jumped into the deep end like daytime in the evenin'  
It got dark out there so fast it took everything I had  
All the fears that I've been facin', the mistakes I kept on mak  
in'  
I changed them all that day, I chased them all away  
I guess you saw this comin' long before I did  
You never wondered if I could you only wondered when

Wish you could've been there to see me  
You always believed me even when I couldn't believe myself  
Wish you could've been there to see this  
The moment that I witnessed, every single word you said come tr  
ue  
Wish you could've been there  
Wish you could've been there

Tonight I'll close my eyes and sleep for the very first time  
I'll dream of waking up next to you  
You can't count on second chances, Lord knows I've had a few  
You gave me all the answers, it was up to me to choose

It took so long for me to realize what you already knew
