

Fireplace

The Olivia Tremor Control

I was there when you were down
Generally feeling gratified and electrified
Poetry of feelings good
Drama through the night
If you get to your destination ya just might
Be on time

I'll tell you all of the words that we could speak
I write them on my shoes every day
And when it's warm we can throw them in the fireplace
And the carpet is a running shade of grey

Air is nothing here but air to breath
You show me your colour box
To paint your knees

I was there when you were down
Generally feeling gratified and electrified

And there are words that we could speak
I'd write them on my shoes every day
And when it's warm we can throw them in the fireplace
And the carpet is a running shade of grey
