

The Opera House

The Olivia Tremor Control

we're in the movies
watching some people move their mouths
and a religious figure
who's not really a religious figure
'cause he's an actor

we feel ok
which is how we feel most of the time now
nothing can be done without the willingness
to succeed

let's go to the opera
since all of our favorite memories have failed us

you make the choice, you make the choice
you make the choice, you make the choice

historic properties, historic places
the next generation
lost in a sea of faces
there's no hope for generating electricity
no sidewalks
i just need some kicks

you make the choice, you make the choice
you make the choice, you make the choice
