

# Prisoner

## The Ongoing Concept

Baby don't you wanna hear what I have to say?  
They've told you not to be like me, that I'm just a useless fool  
But baby it's hard to see when everything you've heard is smoke  
and mirrors  
And it's time you lift that veil from your eyes and see where this  
lie will lead

Don't swallow that lie. Spit it back up and sing this with me  
One. Two. Ready

Give it up all you liars and thieves  
Give it up, you're killing passion with greed  
We're all just prisoners

Maybe I'm just enraged because I played the game for thirteen years  
And they say I have to follow through or stay irresolute  
Yet I watch them rob the youth and swear to them that it's a necessity  
To turn boy into a man, this has to be the only way

It's the only way. And they say, "Join or die." Fund that lie  
How do I put this lightly?

Give it up for all you liars and thieves  
Give it up, you're killing passion with greed  
We're all just prisoners

I won't be a victim  
I'll work for distinction not a printed page  
I won't be a victim  
I just can't take it anymore, how you

Prey on the minds of the young and defenseless  
Watch as they fall for the lies and deception  
If you hear a lie for long enough and loud enough  
It won't be long until you believe it

It's just a matter of time  
And you better watch your back because you've made an enemy  
I'm your enemy

Give it up for you liars and thieves  
Give it up, you're killing passion with greed  
We're all just prisoners  
I'm not your prisoner
