

# You Will Go Again

The Ongoing Concept

You will go

It's not my fault it got away from me  
Don't need no sympathy  
Don't need none of your pity, don't need none of your pity  
I'm burdened by this life  
So sick of being tired  
I'm running low on empathy  
So you go on, have everything

Places you have been make you who you are  
Places you will go make you who you will become  
Places you have been make you who you are  
My mind is playing tricks  
Gotta get it outta my system  
Get you outta my system. gotta get you outta my system  
Desperation leads to my emotions

Inspiration renewing me  
No longer tainted with hate and envy  
Desperate  
To get you up off the ground  
You. Will. Go. Again!  
You will go, again again again again again, again

Places you have been make you who you are  
Places you will go make you who you will become  
Places you have been make you who you are  
My mind is playing tricks  
Gotta get it outta my system

Get you outta my system. gotta get you outta my system  
Desperation, desperation  
Get you outta my system. gotta get you outta my system  
Desperation leads to my emotions  
You. Will. Go. Again!  
You will go
