

You Will Go

The Ongoing Concept

Desperation leads to my emotions
My mind is playing tricks, got to get it out of my system
I pace at night trying to figure out what I've done
My sanity is keeping me from thinking straight

Writing on the wall, trying to figure it what I said
You keep on having everything you've wanted
Inspiration is leaving me, as fast as I can keep it

Get up off the ground, if you could only
See what you have found
Get up off the ground, if you could only
See what you have found

Get up off the ground, you can make a difference now
Get up off the ground, because I don't know if I'm ever going to be t
here
My heart is tainted, full of hatred
Get up off the ground

Desperation leads to my emotions, so much confusion
There's no way, there's no way to let it out
There's no light at the end of the tunnel
Will I ever find my out of this?

Get up off the ground, there's no reason
Get up off the ground
Get up off the ground, there's no reason
To end it all right now

Get up off the ground, you can make a difference now
Get up off the ground, because I don't know if I'm ever going to be t
here
My heart is tainted, full of hatred
Get up off the ground

You can make a difference now
Places you have been make you who you are
Places you will go make you who you will become
Places you have been make you who you are
You can make a difference now
Places you will go make you who you will become
Places you have been make you who you are
Places you will go make you who you will become

Desperation leads to my emotions
Your mind is playing tricks
You better get it out of your system
Get up off the ground
If you could only see what you have found
