

The Big Sleep

The Only Ones

You woke me from a big sleep
You taught me how to think cheap
You woke me from a big sleep
When you kissed me... oooohh
On the cheek

I don't ever wanna sleep again
Now that I've found love
I don't ever wanna sleep again
Now that I've found love

(I've found love)

As soon as someone showed me
There's no such thing as glory
Changed my life completely
Now it's a whole different story

I don't ever wanna sleep again
Now that I've found love
I don't ever wanna sleep again
Now that I've found real love

Oh in case you're wondering if I been struck dumb
I'm cold inside and my heart is numb
In case you're wondering if it's too late
I won't hibernate, whoah woohoo na na na na

I don't have the strength to break an empty shell
And I surely don't have the strength to mend it

Well,
I don't ever wanna sleep again
Now that I've found love
I don't ever wanna sleep again
Now that I've found love
