

Can You Tell Me One Thing

The Organ

I skateboard to your house and fall
Skateboard's not a verb at all
I go there every night
You said you don't mind at all

You said you're my best friend
Some say you want me dead
What's all the fuss about?
You should shout it out

Can you tell me one thing, are you alright?
I don't recognize your verbs tonight
Can you tell me one thing, are you alright tonight?
