

It's Time To Go

The Organ

If you're tired of the scene
And rock doesn't mean a thing
And all the girls look bad when they sing:
La da da

It's time to go
It's time to go

And your friends know all the words
To the songs that you've already heard
And as they get on the floor they sing:
La da da

It's time to go
It's time to go
