Digital Affection

The Orion Experience

Digital affection

I wanna give to you, all my emotion
I wrap it up in this heart-shaped token
I wanna send to you this secret letter
I'll tell you anything so you can know me better

My hand starts to shake
Cause I know you're awake
And I want you, I want you
I... I... I...

I want your digital affection (digital affection)
Our love flows across space and time
A metaphysical attraction (physical attraction)
I'm in love with your electric mind

So when the moon is bright, across the ocean
I'll send my letter with its sweetness and devotion
And when you close your eyes, lose all resistance
We'll start to feel that spooky action at a distance

I want you so much
And I live for your touch
And I need you, I need you
I... I... I...

I need your digital affection (digital affection)
Our love flows across space and time
A metaphysical attraction (physical attraction)
I'm in love with your electric mind
A supernatural connection (natural connection)
We'll leave this weary world behind
A lovely chemical reaction (chemical reaction)
I'm in love with your electric mind

My hand starts to shake
Cause I know you're awake
And I want you, I want you
I... I... I...

I want your digital affection (I want your digital affection)
Our love flows across space and time
A metaphysical attraction (a metaphysical attraction)
I'm in love with your electric mind
A supernatural connection (a supernatural connection)
We'll leave this weary world behind
A lovely chemical reaction (a lovely chemical reaction)
I'm in love with your electric mind
