

Back me out of this mess, I can't help it I'm
Constantly hiding all the feelings I'm finding here within
Word's on the carpet and everyone's watching me, they
Wait for my downfall, hit my face on a brick wall

They don't wanna see you the way I do
But life looks better when you're in my worldview

Suddenly, everything is easy
I've never felt something so deeply
'Cause with you, with you, I breathe again
Baby, you're my oxygen
Oh, oh, oh...

Help me out of this place, I'm stuck inside a
Wave of confusion over what's the solution with my life
Mostly, I'm okay with having a few bad days
Locked in my bedroom with my heart on display

But they don't want to see you the way I do
And life looks better when it's here beside you

Suddenly, everything is easy
I've never felt something so deeply
'Cause with you, with you, I breathe again
Baby, you're my oxygen
Oh, oh, oh...

Baby, be my oxygen

Suddenly, everything is easy
I've never felt something so deeply
'Cause with you, with you, I breathe again
Baby, you're my oxygen

Baby, you're my oxygen
Baby, you're my oxygen
Oh, oh, oh...
