

Rollercoaster

The Orion Experience

Your love is like a rollercoaster
Your love is like a rollercoaster

In the summer when I met you baby you were just a child
So I brought you to a fair and there I took you for a ride
I threw a ring around a bottle and your love it was my prize
But now you've gotten just a little bit older
Say you're always looking over your shoulder
All grown up you don't need me by your side

Your touch makes my heart beat faster
Even though I know we're headed for disaster
Any minute now the thrill is getting closer

Your love is like a rollercoaster
You send me spinning up into the sky
You send me crashing down I want to die
Up and down and under and over

Your love is like a rollercoaster
Your love is like a rollercoaster
Your love is like a rollercoaster

By the second time we got together you had gotten wise
You learned a little more about the world and now you saw through my disguise
You said if we were gonna make it last forever I had best decide
Now at the top of the ride you took my dare
Let go of the bar, threw your hands in the air
I just panicked and I had to close my eyes

Your touch makes my heart beat faster
Even though I know we're headed for disaster
Any minute now the thrill is getting closer

Your love is like a rollercoaster
You send me spinning up into the sky
You send me crashing down I want to die
Up and down and under and over

Your love is like a rollercoaster
Your love is like a rollercoaster
Your love is like a rollercoaster

Whoa now how many times have I fallen
Just to come a crawlin to the back of the line
I go up your hill to chase another cheap thrill
Your love gives me a high
Send me spinnin into an oblivion
Every time you hit me with goodbye
I guess I keep on riding til the thrills all gone
You keep givin it so I keep getting on
Yeah yeah
(Your touch makes my heart beat faster, even though we're heading for disaster)
Whoa oh oh
(Any minute now it's getting closer)

Your love is like a rollercoaster
You send me spinning up into the sky
You send me crashing down I want to die
Up and down and under and over

Your love is like a rollercoaster
Your love is like a rollercoaster
Your love is like a rollercoaster
Your love is like a rollercoaster
