

Vampire

The Orion Experience

Whoo Hoo
Whoo Hoo
Whoo Hoo
Whoo Hoo

They come alive when the sun goes down
They haunt the discos of the city
Looking for a lonely soul who'll play around
Designer drugs feel so right when you mix electronic sounds
And now the lights are hot and spinning
And her lips are cold and grinning
As she puts another lover in the ground

Cause she's a vampire vampire hotter than a hellfire
Strolling through the city her heart has got no pity for ya
Vampire vampire sparkle like a sapphire
Strutting through the ghetto a sexy black stiletto she's a
Vampire vampire (you got what she needs)
Vampire vampire (as long as you bleed)
Vampire vampire (one kiss will bring you to your knees)

Whoo Hoo

Another handsome playboy another Friday night
He's looking slick and pretty just like sexy dynamite
Then there she is the girl you dream about
The one that you'll be taking home tonight
A shot of jack for courage you're feeling out of sight
You lead her to the dance floor underneath those spinning lights
She says come a little closer boy don't worry I don't bit
Come join me in the garden of earthly delights

Cause she's a vampire vampire hotter than a hellfire
Strolling through the city her heart has got no pity for ya
Vampire vampire sparkle like a sapphire
Strutting through the ghetto a sexy black stiletto she's a
Vampire vampire (you got what she needs)
Vampire vampire (as long as you bleed)
Vampire vampire (one kiss will bring you to your knees)

Now she's devoured blokes like you for seven thousand years
Bloodsucking every one of them she'll never shed a tear
And a mirror don't bring near her cause that bitch is super fine
Don't hate her or berate it's the nature of her kind
Cause she's a vampire vampire hotter than a hellfire
Strolling through the city her heart has got no pity for ya
Vampire vampire sparkle like a sapphire
Strutting through the ghetto a sexy black stiletto she's a
Vampire vampire (you got what she needs)
Vampire vampire (as long as you bleed)
Vampire vampire (one kiss will bring you to your knees)
