

## Bar Fly

The Orwells

We cannot give up  
I put the tea on  
Everyone gets hung up on a dream  
I'm a regular, oh boy  
The drink is free  
If you hit the bathroom don't forget your key  
"You're a narcissist," said the narcissist  
When the game is on, will you bet on it?  
When the winter comes can you quit the shit  
I'm a stand-up guy but I think I'll sit

I've been standing in the way  
It never left me  
Wasted all my perfect days  
But I think I'm happier

Swinging in the rough  
I felt the breeze  
Like the alcoholic bending at the knees  
In the motel doing pull-ups on the sink  
We can make it better boy, just take a drink  
You got too much riding on ya  
Can't remember who had saw ya  
Gotta keep the children jumping  
They're gonna keep the speakers bumping

I've been standing in the way  
It never left me  
Wasted all my perfect days  
But I think I'm happier

I've been standing in the way  
It never left me  
Wasted all my perfect days  
But I think I'm happy  
I've been standing in the way  
It never left me  
Wasted all my perfect days  
But I think I'm happier
