

# Fever

The Osmonds

Ooo, she's the coolest foxy lady  
She made me lovesick baby  
Well, I got a case of fever  
it's like a burning fire (burning fire)

My temperature is rising  
No hope of neutralizing  
My thermostat, its meter's off  
and running wild  
The love bug it done bit me  
One kiss and then it hit me,  
knocked me off my feet

Oh, her boogie down vibration  
Got my heart palpitating  
She shook up my foundation,  
left me lean and weak  
Got the sizzlin' hocus pocus  
I'm delirious, can't focus  
And love's the diagnosis  
and it's killing me

Mama, mama, mama,  
ooo you light my candle,  
give me fever  
Burning up my brain,  
little woman you give me fever  
Doctor, doctor, doctor,  
oh, help me I'm frantic from this fever  
And it's getting higher, higher, higher

Oooo, she's a turn on super baby  
She drives my motor crazy  
My pressure gage is climbing  
I can't take no more  
(no more no more)  
My head's disintegrated  
I'm discombobulated  
Well, I've got to get away  
someplace now that's for sure

Burning, burning, burning,  
ooo, she makes me frantic,  
gives me fever  
Feeling quite insane,  
little woman you give me fever  
Doctor, doctor, doctor,  
ooo, can't hardly stand it  
stop this fever  
Cause it's getting  
higher, higher, higher  
Higher, higher, higher

Little mama you give me fever  
Little mama you give me fever

The love bug it done bit me

One kiss and then it hit me  
who said love is sweet  
Mama, mama, mama

Little mama you give me fever,  
burning away, ooo, you wanna say  
Little mama you give me fever,  
I gotta run, run, run away,  
hey, hey, hey  
Little mama you give me fever,  
burning away, ooo, you wanna say  
Little mama you give me fever, I

Gotta run, run, run away,  
hey, hey, hey
