

In The Rest Of My Life

The Osmonds

Wake up and smile on me sunshine
Make me feel warmer all the way through
After your love lights are burning
Show me the sweet things I know you can do

Oh, my Darling, in the rest of my life
I may never find another exactly like you
Oh, I'd be a fool to spend the rest of my life without you
I have to leave for a long time

Hope that your loving can wait till I'm gone
Memories of you will be all that I have
To keep up my spirits and carry on
Oh, my Darling, in the rest of my life

I may never find another exactly like you
Oh, I'd be a fool to spend the rest of my life without you

Everywhere I go I meet a million pretty women
All wanting, wanting to be loved by me
But it don't mean a thing, no it don't mean a thing
No, no, no, yeah

Oh, my Darling, in the rest of my life
I may never find another exactly like you
Oh, I'd be a fool to spend the rest of my life without you
Oh, my Darling, in the rest of my life

I may never find another exactly like you
Oh, I'd be a fool to spend the rest of my life without you
Oh, my Darling, in the rest of my life
I may never find another exactly like you

Oh, I'd be a fool to spend the rest of my life without you
Fade...
