

The Last Days

The Osmonds

Nations take up there battle stations
Patrons of zodiac revelations
Lustations breaking family relations
Litigation allowing shoot up sensations
That's what they said, someday it would be
Now just look around if that's what you see
It's gotta be the last days
Gotta be the last days

People living lives of confusion
Billions caught up in revolution
Cities lost in their own pollution
Question, what is the Constitution

That's what they said, someday it would be
Now just look around if that's what we see
It's gotta be the last days
Gotta be the last days

That's what they said, someday it would be
Now just look around if that's what we see
It's gotta be the last days
Last days, it's gotta be the last days
It's gotta be the last days
It's gotta be the last days
It's gotta be the last days
It's gotta be the last days
It's gotta be the last days
It's gotta be the last days
