

## Walkin' In The Jungle

The Osmonds

Walkin' in a jungle, jungle full of tigers  
Livin' in a jungle, a jungle full of liars  
What was once a city, everyone so willing  
Now it's full of tigers, waiting for the killing  
Can I get by? Will I survive in the middle of a jungle?

I put in other people I never thought of shunning  
Now I get the feeling that I should be a-running  
A half a million tigers to live within the city  
To see us in the jungle isn't very pretty  
Can I get by? Will I survive in the middle of the jungle?

Can I get by? Will I survive walkin' in the middle of a jungle?  
Walkin' in the middle of a jungle
