We All Fall Down

The Osmonds

We All Fall Down.

Listen to what I tell ya-
It really don't matter what you may be
What your name is?
What your game is?
Or what you mean to society!

If your life is missing,
That someone who's really gonna care
Makes ya think man, not so big man
Everybody's the same everywhere
Cause -
We all fall down!
We all fall down!
We all fall down!
(If we don't get our loving!)

Oh, what good does it do ya,
To be rich if your heart is poor

You can smile, yeah, for a while, yeah,
But you know there's something more

Come, don't try to hide now, we all know who we really are
After all we're only people
we can only go so far!
Then -
We all fall down!
We all fall down!
We all fall down!
(If we don`t get our loving)
We all fall down!
We all fall down!
We all fall down!
(If we don't get our loving)
We all fall down
We all fall down
We all fall down
We all fall down
fade...
