

We Never Said Forever

The Osmonds

I looked into your eyes and knew
That I'd really like to be with you
All of that was yesterday
Now you're feeling insecure
Say a woman needs to know for sure
You can make it day by day

We never said forever
But I didn't think you'd ever turn, turn away
We never said forever
But I want you to stay
Love can be a full time thing
Even when it's not tied by strings
Girl, don't throw our love away

We never said forever
But I didn't think you'd ever turn, turn away
We never said forever
But I want you to stay
We never said forever
Now you're acting like it's hard for you, you to see
We never said forever
But I need you with me

We never said forever
But I didn't think you'd ever turn, turn away
We never said forever
But I want you to stay
We never said forever
But I didn't think you'd ever turn, turn away
