

# Something Good

The Overtones

Hey yeahhhahaha  
I'm into something good  
Yeah yeah yeah

I've been waiting for a long time  
To have my moment in the sunshine  
Now I know, I'm into something good  
When I wake up and the birds are singing  
Every day it's like a new beginning  
I know I'm into something good, yeah hey  
I wonder why I feel mesmerized  
Girl it's you  
And the things that you do  
I think of you and I get so hot  
I gotta shout it from the rooftops!

I'm into something good  
So good  
And this feeling like I knew it would  
I'm into something good  
So good  
So much better than I ever thought it could  
Cause we're feeling alright  
And we're holding it tight  
I'm never gonna let it go  
I'm into something good, yeah yeah

Don't you worry about the grey skies baby  
Cause when I'm with you there is no buts or maybes  
I know, I know  
I'm into something good  
I'm into something good  
I wonder why I feel mesmerized  
Girl it's you  
And the things that you do  
The things that you do  
I think of you and I get so hot  
I gotta shout it from the rooftops!

I'm into something good  
So good  
And this feeling like I knew it would  
I'm into something good  
So good  
So much better than I ever thought it could  
Cause we're feeling alright  
And we're holding it tight  
I'm never gonna let it go  
I'm into something good

If it feels so good it's something good  
Like I knew it would  
If it feels so good it's something good  
Just like it should  
If it feels so good it's something good  
Woohooooo  
Cause we're feeling alright

And we're holding it tight  
I'm never gonna let it go

I'm into something good  
So good  
Hey yeahhh  
And this feeling like I knew it would  
I'm into something good  
So good  
So much better than I ever thought it could  
Cause we're feeling alright  
And we're holding it tight  
I'm never gonna let it go  
I'm into something good
