

## Heatin' Up

### The Ozark Mountain Daredevils

Done heatin' already where the man  
Tellin' me the mercury's out of hand  
Heat wave shimmies off a blacktop street  
You better keep movin' or you'll burn your feet

Somethin' 'bout the sun when it's beatin' down  
Makes a young man's head start spinnin' around  
The old man smiles 'cause he knows this town's  
Heatin' up  
Heatin' up

The girls and guys on the drag downtown  
Radio up and the rag-top down  
Heatin' up  
Pool hall boys all drop their cues  
Runnin' outside 'cause they're feeling the dew  
Heatin' up

The sweat starts smokin' with little hot drops  
From the cut-off jeans and the halter tops  
It's startin' now and it ain't gonna stop  
Heatin' up  
Heatin' up  
(Here we go)

(Ha, lower, ha ha ha ha)  
Sun is sinkin' but it's too late now  
The juke-joint crowd just can't cool down  
Heatin' up  
The dance floor's shaking from the heavy beat  
Steam cloud rising from the potter's wheel  
Heatin' up

Some are gonna love and some are gonna fight  
As the hell fire burns through the summer night  
And it all starts over in the mornin' light  
Heatin' up  
Heatin' up  
Heatin' up  
Heatin' up  
(Shh... yeah)
