

# There Oughta Be A Law

## The Ozark Mountain Daredevils

When she moves, she moves me  
When we touch, it's a burn and freeze  
She's too much, too much for me  
She's got this thing, this thing she does  
This thing she does, it goes buzz-buzz-buzz  
You'll never know, just what it was

And there oughta be a law against it  
There oughta be a law against it  
There oughta be a law, oughta be, oughta be  
There oughta be a law against it  
But I don't know what they 're going to call it  
But one way another, it's all man's fodder  
And there oughta be a law against it  
There oughta be a law

What she wants, she gets somehow  
What she gets, she gets right now  
If she wants you, you go bow-wow-wow  
You get wishbone talk in the bush, bush tease  
A mystery walk, in high-heeled shoes  
Press your luck, you'll always lose

And there oughta be a law against it  
There oughta be a law against it  
There oughta be a law, oughta be, oughta be  
There oughta be a law against it  
Well I don't know if I can keep it too myself  
She's got the mantle to my mental health  
And there oughta be a law against it  
There oughta be a law

When she moves, she moves me  
When we touch, it's a burn and freeze  
She's too much, too much for me  
And there oughta be a law against it  
There oughta be a law against it  
There oughta be a law of some kind of law  
There oughta be a law against it

There oughta be a law against it  
There oughta be a law against it  
There oughta be a law of some kind of law  
There oughta be a law against it  
But I don't know what they 're going to call it  
One way another, it's all man's fodder  
And there oughta be a law against it  
There oughta be a law
