Lights

The Pack A.D.

Place your trust in us
We're so scrupulous
That knife looks dangerous

What's all this fuss?
Don't worry it's only us
So supercilious

Lights
Lights
Lights

Ack, it was only just
Smoke, it's so cancerous
Try it, it's delicious

Woman in suit, so business
Try it on, oh gorgeous
The mirror is lookin' at me

Lights
Lights
Lights

Your disorder's on the cusp
Could be almost hideous
You're just ridiculous

I can't get close enough
That bird's androgynous
It's really unnerving me

Lights
Lights
Lights
Lights
