

No Good

The Pack A.D.

There's something on my plate
I didn't order
It came out of nowhere
I didn't expect
Throws me off course
Into disorder
Cross my eyes and every single line

Ooh ooh

There's someone in my head
I didn't ask for
That made up my mind
It wasn't me, I am sure
Throw my arms up
Guess I surrender
There's no shame, at least I didn't faint

Ooh ooh

It's all right
I'll survive
I'm alive
Aren't I?

You barely notice me
I run out on the road
I scream, jump, and shout
I know it's getting' old
It's no good

Crime in the streets thing
Number-one victim
Just like the one
I saw on TV
It's funny (not really)
How I keep laughing
She looks and acts
Uneasy, like she's me

Ooh ooh

It's all right
I'll survive
I'm alive
Aren't I?

You barely notice me
I run out on the road
I scream, jump, and shout
I know it's getting' old

You claim you don't know me
But it's obvious to them
I'll call out your name
And you'll come back again
It's no good

It's no good
It's no good
It's no good
