

Never Enough

The Pale White

I pulled the pin today
The sweet taste of hand grenade
Shrapnel encrusted skin
Designer everything

I want more, it's never enough, oh no
I want more, it's never enough, oh no

Pink gin, Black Friday
I'll fuck it my way
We'll capsize the vanity
With a top shelf lobotomy

I want more, it's never enough, oh no
I want more, it's never enough
It's never enough
It's never enough
It's never enough

Wealth is health to me
We're shaking the bag to save the goldfish now
So give your wealth to me

I want more, it's never enough, oh no
I want more, it's never enough, oh no
I want more, it's never enough, oh no
Oh no, it's never enough
