

# Panic Attack

The Pale White

It's not pretty when I'm alone  
I'm constricted within these walls  
Claustrophobic and there's no door

Extinct like a dinosaur  
My happiness is a meteor  
It crashes down and it kills us all

It's not pretty when I'm alone  
Life starts sinking into the floor  
One step feels like a marathon

The brink of a real shitstorm  
Catastrophy feels like a second home  
One-way ticket to combustion

I'm having a meltdown  
And I'm getting nervous now

I'm having a meltdown  
And I'm getting nervous now

Help, my friend, take me anywhere but the end  
Help, my friend, take me anywhere but the end

I'm having a meltdown, and I'm getting nervous now  
I'm having a meltdown, and I'm getting nervous now

This is the end  
This is the end  
This is the end  
This is the end  
This is the end  
This is the end  
This is the end  
This is the end  
This is the end
