

Validate Me

The Pale White

There's trouble in my house, I'm still sucking my thumb, I am numb

"Get a good job," they said, "And ditch your hobby while you're there"

Bad day, bad posture, I need to straighten up, note to self
This life is a work in progress, can't walk on water just yet

I'm at war with myself
I'm at war with myself
I'm at war with myself
And everyone else (Woo)
Ooh

I could preserve my thoughts in formaldehyde, ooh
So when I'm gone and the penny drops, they'll find
That I was onto something, so just shut up and listen while you can

I'm at war with myself
I'm at war with myself
I'm at war with myself
And everyone else
Mm
Everyone else

You made me an offer I had to refuse
Big house, nice car, there's more to this world
Look through my lens and see what I see
The void, ooh
All the time we choose to waste online
The endless abyss, woo
We can choose life
Give it a try, ooh, ooh

I'm at war with myself
I'm at war with myself
I'm at war with myself
With myself and everyone else
