

Dearest

The Paper Kites

We go any time
And we're all but thinking
Of the ones by our side
But we go anyway
When we're old we'll be wondering
Why we didn't stay

And I'll always care for you mother
Never will I find another

We go any time
Though I'm not always with you
Oh I'm not far behind
Know I'm happy now
And I'm doing the best I can
With what I know how
Oh I'm doing the best I can
With what I know now

And I'll always care for you brother
Never will I find another

And I'll always care for you lover
Never will I find another
