

For All You Give

The Paper Kites

I want to take you everywhere I go
Have you by my side
Take a walk round in every town
Drive across state lines
Like the sun sends a golden stream
In to our front room
I could be the same old light
For you
Like the morning is always new
Give it back to you
Like the rain it just passes through
For all you give
I'll give it back to you
I think about it like a man in need
Every time I'm gone
Wait to see you like a mile long train
Is passing by your door

And my life is set around you now
Tangled up the same
I will be
The one who calls your name
Like the night comes black and blue
I'll give it back to you
Like a road runs straight and true
For all you give
I'll give it back to you
