

## On the Corner Where You Live

The Paper Kites

I don't always work like I think I should  
At the end of the day  
I don't always wake up with the  
Right words to say but

If I can make you feel something  
I can make you feel it down to your bones  
When you close your eyes at night  
Would you let me run straight to you

I want you to know

Nothing's gonna take you baby  
Nothing's gonna take you now  
Nothing's gonna take you baby  
Nothing's gonna take you now

I don't always talk like I think I could  
When I get that way  
But I know I don't wanna see you hurt  
See you run away so

If I can make you feel something  
I can make you feel it down to your bones  
When you close your eyes at night  
Would you let me run straight to you

I want you to see

Nothing's gonna take you baby  
Nothing's gonna take you now  
Nothing's gonna take you baby  
Nothing's gonna take you now

All this time you're on your own  
And I watch you going by  
But all this time you're still the same  
On corner where you live  
What I wouldn't try to give  
To say

Nothing's gonna take you baby  
Nothing's gonna take you now  
Nothing's gonna take you baby  
Nothing's gonna take you now
