

# Take Me Home

The Paper Kites

I can't go, I can't leave  
I wear it like it's on my sleeve  
I work at night till the working's done  
Burn on down the highway one

People all around me now  
I'm a stranger in a stranger town  
I know just where you're gonna be  
Take me home so I can see  
Take me home so I can see

It's the light on the valley  
It's the leaves when they change colour like they do  
It's the thunder rolling in  
Take me home

It's the sound of the rain falling down  
It's the slowing of the world going round  
It's a light in the window that I've found  
Take me home

I can't go, I can't leave  
I wear it either way it seems  
I work at night till the working's done  
I know just where I'm coming from  
Show me where I'm coming from

It's the light on the valley  
It's the leaves when they change colour like they do  
It's the thunder rolling in  
Take me home

It's the sound of the rain falling down  
It's the slowing of the world going round  
It's a light in the window that I've found  
Take me home  
Take me home
