

Have A Nice Day

The Paramedic

Bounce

Oh

Here I am right back where I started
But I'm way too strong to feel broken hearted
For far too long I've let you hold me down with such ease
And you expect me to act like I give a shit?
Bitch please

Break it down bitch

I won't let you
Control my life any more

With everything you've thrown my way
I've been wanting to say
I'm over this (Over you)
Fuck you,
And have a nice day (2x)

Never again,
I swear to God, never again.
I refuse to let you leave me broken down on the floor
This chapter is over. I'm closing the door
I'm rising up, I'm making the climb,
And I'll be damned if I don't
Take back what's mine
Cute, how you think
That I'll sit here and whine
Don't worry bout me, bitch
I'll be just fine

With everything you've thrown my way
I've been wanting to say
I'm over this (Over you)
Fuck you,
And have a nice day (2x)

I'm so sick and tired of the drama that you always make
Just seeing the path of all the bleeding hearts that you love to break
But I'm gonna do me
So when I see
How well you leave
With no delay
Just know you ain't on my mind
So have a nice day

With everything you've thrown my way
I've been wanting to say
I'm over this (Over you)
Fuck you,
And have a nice day (2x)
