

Scary

The Parlotones

Rip rip rip your eyes away
from mine stay there stay there stay
one more night until the end of time
go pick a fight see if anyone cares
go pick a fight I dare

it's scary it's scary that look in your eyes
won't be won't be a friend of mine
I'll shake your hand but you're no friend of mine
wish away those childish battles
I should never have fought
sticky sticky sticky little words
engraved in my thoughts
go pick a fight pretend
this is real life go pick fight - I'll choose the other side.
