

Stand Like Giants

The Parlotones

Oh

We will stand like giants

Oh oh

We will stand, stand like giants
We will stand, stand like giants

We will stand,
We will stand like giants

I know, says the mirror, we all feel a little weak
The cure is amongst us, our collective energy
There's billions of souls, yet we all feel so alone
Together, together we can stand as giants

We will masquerade
Hear our serenade
We will stand like giants
A moment so insane
Lets swim in gold champagne
We will stand like giants

Our souls illuminate
We oscillate
We titillate
We gravitate
Towards, magnificent moments

Let's shaperone this cyclone energy
The cornerstone
This destiny
Our velveteen, our codeine, our caffeine
Our energy

We are not afraid
Of this hurricane
We will stand like giants
Magnificent crusade
Like a bullet train
We will stand like giants

Searched the Aquarium
Auditorium
Emporium
This kingdom has delivered, this energy
Jewelry in our eyes
Luxury in our smiles
The melody
The peotry

Oh my, my
Oh my, my
Oh my, my
This energy

We are not afraid
Of this hurricane
We will stand like giants

A moment so insane
Let's swim in gold champagne
We will stand like giants

Wo ho, wo ho
We will stand like giants
Wo ho, wo ho
We will stand like giants

I know, says the mirror, we all feel a little weak
The cure is amongst us, our collective energy
There's billions of souls, yet we all feel so alone
Together, together we can stand like giants
