

# I Don't Give A Fuck

The Partisans

Were living in a boring world  
Im living on booze and birds  
They say that everythings free  
Its not true and it will never be  
No I dont give a fuck  
Sometimes I think I will be dead  
With all the glue that is in my head  
No jobs and we want no pope  
There is nothing left and I have got no hope
