

No Satisfaction

The Partisans

No Satisfaction guaranteed
Saturday means something
Crave the thing you know you need
Right now you're worth nothing
Going places you don't know
Days keep going nowhere
One last coin wont save your name
Or get that ticket out of here
Work all week get some say
Feeling 5 years older
Make that vote get off your knees
Or start the whole thing over

I tried living on the other side
The grass ain't greener but it looked alright
Was given nothing for the pain I felt
So I got right out

The boss got fed the contract said
Blackmail by emotion
Fuck that game I'll clear this head
Break my back for no one

The suits inside the boardroom like
To say you'll get no mention
And that's because redundancy
Will get your best attention

I know you're fucked over
And living on automatic
I know you're messed over
And living on someone's handout
I know you're fucked over
I want it all for nothing
