

Hello, Hello

The Partridge Family

Hello, hello, I love you so
Yet it all began when I ran into you not so long ago
And since that day I've wanted to say hello, oh, oh

Hello, would you like to go
To a place with me where we can watch the hours go by?
You're sure someone I'd like to get to get to know, oh, oh

I still don't know your name and I, I couldn't care less
I like what I already see
Whatever sign you are or what's your address
Don't really matter much to me

Just wanna say hello, hello, I love you so
Yet it all began when I ran into you not so long ago
And since that day I've wanted to say hello, oh, oh

Hello, hello, hello, hello

I still don't know your name and I, I couldn't care less
I like what I already see
Whatever sign you are or what's your address
Don't really matter much to me

Just wanna say hello, hello, I love you so
Yet it all began when I ran into you not so long ago
And since that day I've wanted to say hello, oh, oh

Hello, hello, hello
Hello, hello, hello
Hello, hello, hello
