

# How Long Is Too Long

The Partridge Family

You tell me you are through with him  
You'll soon be free just to be with me  
So I'll stay by the phone  
I'm waitin' every night at home  
Watching tv shows and honey  
Heaven knows I'm always alone

Tho' you never call me  
I keep on lovin' you  
Hoping that if I do, you're gonna love me too  
And I won't have to wait too long

But how long is too long  
I got to know, you're makin' me lose my mind  
How long is too long  
Cause baby I've been waitin' a long long time  
How long for so long  
Hopin' everything will turn out okay  
How long is too long  
To sit around and wait till you come my way

I see you walkin' around with him  
Holdin' hands and makin' plans  
You're never apart  
I see the way you look at him  
When you're in a crowd  
I know it makes him proud  
While it's breakin' my heart

And all the time you tell me  
Keep on lovin' you  
And if I do, you're gonna love me too  
And I won't have to wait too long

How long is too long  
I've got to know, you're makin' me lose my mind  
How long is too long  
Cause baby I've been waitin' a long long time  
How long for so long  
Hopin' everything will turn out okay  
How long is too long  
To sit around and wait till you come my way

How long, how long is too long  
How long, how long

How long is too long  
I've got to know, you're makin' me lose my mind  
How long is too long  
Cause baby I've been waitin' a long long time  
How long for so long  
Hopin' everything will turn out okay  
How long is too long  
To sit around and wait till you come my way
