The Phantoms

Greatness is a lifestyle
It's a road of many miles
Never back down, never rest
It seems like this life's a test

Only the best
Show me what you got, stand out from the rest
Yeah you know what I want
The best

Yeah you're looking at the best

They say legends aren't born that way
They're made from the fire and rain
I've traveled all over east to west
I've got no home, no address

Only the best
Show me what you got, stand out from the rest
Yeah you know what I want
The best

Only the best
Show me what you got, stand out from the rest
You know what I want
Only the best
Show me what you got, stand out from the rest
You know what I want
The best
