

A Day in the Sun

The Phoenix Foundation

You are apples | and I am | tangerines
Different fruit from the same tree
And I wonder if you'll | notice me
Different fruit from the same | the same tree

And now my river...
Its time to get your gun | and shoot out all the ... I
did paint

Until the heavens fall and | come to crush us all I |
know that your no sinner |
I'm no saint.

And the sun never sets | it just runs to the West
It just runs away | from the night
And the moon never stops
Its plotting with the cops
Its plotting to | take down the sun

Ohahohah

And you are apples and I am | tangerines
Different fruit from the same tree
And now I wonder if we can fall into the grass
And make this last a little while longer

And the sun never sets | it just runs to the west
It just runs away | from the night
And the moon never stops
Its plotting with the cops
Its plotting to | take down the sun...
