

## Blue Summer

The Phoenix Foundation

You're so careful  
And you're so kind  
Well I'm careless and I'm blind  
Oh oh  
But I never mean a bad word  
Oh no  
Well I only wanna see you smile

In my coat  
Out of the cold  
There's room enough too  
Ah ooh ooh  
That means you  
Mmm mmm  
I could never try  
I could never try to bring you down

And if I've understood your rights  
You've got the whole world on your shoulders

Baby that don't seem right

This is a chance  
for a new romance  
Summer's here, the sky's blue  
Ah ooh ooh  
I said I wanna be beside you  
Oh oh  
We can be unemployed together

And so I don't think that you're right  
You can have the whole world  
On its knees

Lean within me

Lean within me
