

Day and Month

The Pigeon Detectives

I've seen the sunrise, seen the snow in winter
I've been so tired that I forgot the day I'm on
I never thought that it would happen to you
If it was only the one time, only the one time

Are you waiting for a chance?
You know that I wanna take you out
And I've been waiting a long time
No one's looking for you
You know that I wanna take you out
And I've been waiting a long time
No one's looking for you

I've seen the leaves turn, I watched the rain at night
I feel so tired, but I can't wait to say your name
I never thought it will be up to you
To make this only the one time, only the one time

Are you waiting for a chance?
You know that I wanna take you out
And I've been waiting a long time
No one's looking for you
You know that I wanna take you out
And I've been waiting a long time
No one's looking for you

You got something, everybody knows now
You got something, everybody knows it's true
You got something, everybody knows now
Everybody knows now, everybody knows

You know that I wanna take you out
And I've been waiting a long time
No one's looking for you
You know that I wanna take you out
And I've been waiting a long time
No one's looking for you
