

## Go at It Completely

### The Pigeon Detectives

Pick yourself up off the bathroom floor  
You know that you've got a problem that we can't ignore  
They're telling you that you don't belong here  
Well I'm not saying what you wanna do  
But you know something is changing and it must be you  
Hey now girl, it's your life  
And you can turn it all around

If you go at it completely  
Go at it completely  
You go at it completely

Shaved my face and I felt somehow new  
I know it's only a start but it will have to do  
They're telling me that I don't belong here  
People say that it's just a phase  
And if you really want it you could change your ways  
But listen hey now girl, it's your life  
And you can turn it all around

If you go at it completely  
Go at it completely  
You go at it completely

I don't know what you were talking about  
But you're wearing us out  
You just keep on complaining  
Well I don't know what you were talking about  
But yeah you're wearing us out  
You just keep on complaining

When you go at it completely  
Go at it completely  
You go at it completely
